

THE NEWEST RELEASE FROM COLORADO'S CELTIC CONNECTION

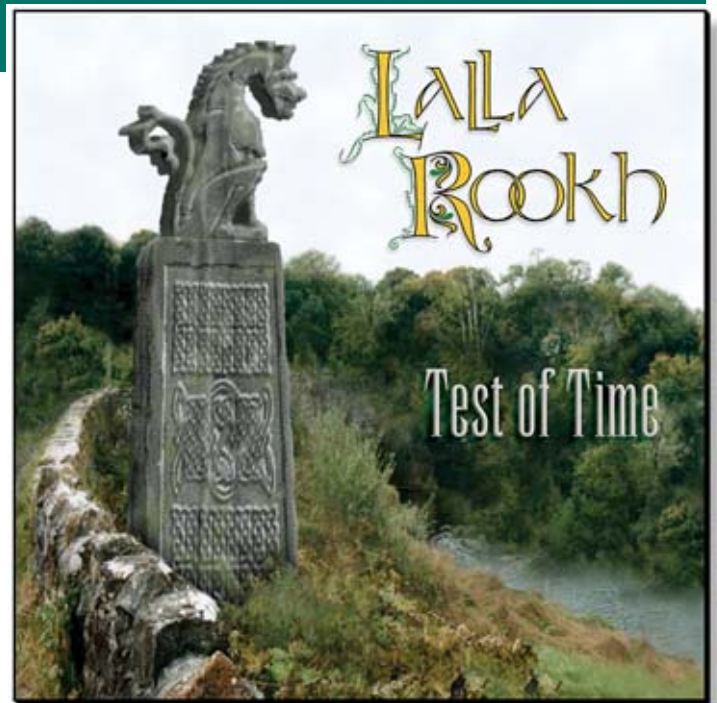

Lalla Rookh "Test of Time"

FOR OVER A DECADE, life has woven the members of **Lalla Rookh** into "a marriage of five." Alternately described as "fresh and lively music that transcends all the years and miles" and "the band that eats," they've grown together and become stronger - individually and collectively - as a result.

The creation of this, their third album, has consumed the time - and patience - of the band for nearly six years. Unafraid to explore and expand beyond the typical Celtic repertoire, Lalla Rookh has tapped into roots as deep as old Ireland and as current as the Grateful Dead. Regardless of origin, the stories, legends and melodies seep into the players and listeners alike.

As this album demonstrates, Lalla Rookh is happily destined to withstand the test of time.
